**ESEP 2020, Letter of Recommendation for Yaolin Ge**

Name of Applicant	Yaolin Ge			
How long have you known the applicant?	Since Jan, 2019			
Relation to the applicant	Master thesis's Supervisor			
Please evaluate the applicant's qualifications, professional knowledge, intellectual ability, potential, and ability to organize and express ideas. You can use an additional page if the space below is insufficient.				
<p>It is my pleasure to recommend a student of mine, Mr. GE Yaolin, as a worthy candidate for admission to your summer education program.</p> <p>I have taught him in the course of Underwater Technology TMR4120 during the second semester of the academic year 2018-2019, which requires solid analytical skills and understanding of underwater robotic systems, as well as independent thinking ability and clear logic from the students. Mr. GE has impressed me with his sincere study attitude and strong analytical skills, which convinced me that he possesses great potential in his career.</p> <p>To be specific, Mr. GE has fully shown his critical thinking and study skills in my course with satisfying the final result of A out of A, ranking top of his class. During the course lectures and the course assignments, he has positively interacted with me, provided comments and delivered his unique perspectives. Worth mentioning, Mr. GE would take his time to research for additional information and make considerations before coming to me for discussions, and sometimes would ask for my advice for supplementary reading materials in order to fill the gaps in his background knowledge. His passion and enthusiasm for exploring and learning new subjects is exemplary.</p> <p>He is currently doing MSc level project work for signal processing of beacons for underwater robotics and has been showing high level of motivation and performance. He has taken good responsibility for his work and has shown interest for the given assignments. His knowledge and systematic mind set has been reflected in the results of his tasks.</p>				
How would you evaluate the applicant as a candidate for enrollment to ESEP?				
Outstanding	Excellent	Good	Average	Poor
