

PKU AI+Art

Accomplishment:

- Performed well in the presentation
- Reflected on training content actively in implementation and seminars
- Participated in tutorial sessions actively and analysed, discussed computer vision related contents and machine learning projects
- Demonstrated well understanding of robotic dancing technique as well as touched a little bit on computer vision through the training programme
- Overall, dedicated a self-motivated research work ethic, led to strong academic performance, anticipated to devote more in scientific researches

Master study accomplishment

- Accomplished the 1st year master study at NTNU and A/A overall grade gained
- Aiming to apply for Ph.D. program in ocean science involved in underwater robotics and AI
