Letter of Recommendation

To Whom It May Concern:

It is my pleasure to recommend a student of mine, Mr. GE Yaolin, as a worthy candidate for admission to your doctoral program.

I have taught him in the course of *Applied Programming and Computer Science DD2325* during the 2nd study period within the first semester of the academic year 2019-2020, which requires solid analytical skills and understanding of applied C programming language, as well as independent thinking ability and clear logic from the students. To be specific, Mr. GE has fully shown his critical thinking and study skills in my course with satisfying the final result of *A* out of *A*, ranking top of his class. Mr. GE, comparing to his other classmates, has impressed me with his sincere study attitude and strong analytical skills, which convinced me that he possesses great potential in this professional field.

Generally speaking, as Mr. GE's lecturer, I strongly support his application because he has the potential and talent in his professional field, and it would be greatly appreciated if you could give him your favourable consideration. Thank you for your consideration on Mr. GE's application, if you need any further information about him, please let me know.

Yours Sincerely,
